

Vortex Flowmeters Market Research

FIVE-YEAR MARKET ANALYSIS AND TECHNOLOGY FORECAST THROUGH 2023

USERS FOCUS ON RESOURCE EFFICIENCY AND COST CONTROL

Vortex flowmeters are suitable for measuring flow of several types of media operating under high pressure and temperature conditions, such as liquids, gases, and saturated and superheated steam. Advances in vibration eliminating technology, multivariable transmitters, and dual sensor vortex meters have increased the reliability and application range of these devices.

Low maintenance and installation costs are also making them more attractive to users. All these advancements have seen increased adoption of vortex technology in the process industries, especially in the chemical, refinery, power generation, water and wastewater, and oil & gas segments.

Revival of the oil & gas sector is expected to have a positive impact on the Capex and OpEx of the manufacturing sector in general. Moreover, users are realigning their operations to adjust with the dynamics in the oil & gas sector, especially upstream activities, and suppliers need to follow suit.

Strategies for both end users and suppliers are discussed in detail in the report so that both can leverage advancements in device and networking technologies, Industrial IoT, and service offerings.

STRATEGIC ISSUES

This report serves as an effective planning guide for providers as well as purchasers of vortex flowmeters. This report will help in understanding the competition and market dynamics.

- Which industries and technology trends will drive the market?
- What role will device intelligence, Ethernet, and Industrial IoT play in furthering market growth?
- Which emerging economies and industries are likely to drive growth?

RESEARCH FORMATS

This research is available as a Market Intelligence Workbook (Excel) and/or a concise, executive-level Market Analysis Report (PDF), with or without detailed charts.

RESEARCH FOCUS AREAS

STRATEGIC ANALYSIS

- Major Trends
- Industry Trends
- Regional Trends
- Strategic Recommendations

COMPETITIVE ANALYSIS

- Market Shares of the Leading Suppliers
- Market Shares by Region
 - North America
 - Europe, Middle East, Africa
 - Asia
 - Latin America
- Market Shares by Industry
 - Chemical
 - Electric Power Generation
 - Food & Beverage
 - Marine
 - Metals
 - Mining
 - Oil & Gas
 - Pharmaceutical & Biotech
 - Pulp & Paper
 - Refining
 - Water & Wastewater
- Market Shares by End Connection
 - Wafer
 - Flanged
 - Insertion

Market Shares by Measured Medium

- Liquid
- Gases
- Steam

Market Shares by Transmitter Type

- Conventional
- Multivariable

Market Shares by Transmitter Mounting

- Integral
- Remote.

Market Shares by Communication

- Protocol

Market Shares by Transmission Method

- Market Shares by Sales Channel
- Market Shares by Customer Type

MARKET FORECASTS & HISTORIES

- Total Shipments of Vortex Flowmeters
- Shipments by Region
- Shipments by Industry
- Shipments by End Connection
- Shipments by Measured Medium
- Shipments by Transmitter Type
- Shipments by Transmitter Mounting
- Shipments by Communication Protocol
- Shipments by Transmission Method
- Shipments by Sales Channel
- Shipments by Customer Type

INDUSTRY PARTICIPANTS

The research identifies all relevant suppliers serving this market.
